

# VA PACT ACT

MAY 26, 2023

## PERFORMANCE DASHBOARD

ISSUE SEVEN

Published Bi-weekly on Fridays

In this VA PACT Act Performance Dashboard, we are demonstrating our commitment to transparency by sharing with all stakeholders —internal to VA and externally—key performance metrics and data we are using to assess our success in implementing the PACT Act.

If you, a Veteran, family member, or survivor would like more information about the PACT Act and your VA benefits, please start here:

### Highlights

The Veterans Benefits Administration (VBA) now has over 29,000 employees, its largest workforce ever. The PACT Act enabled VBA to rapidly hire more employees to meet the critical needs of delivering benefits to all those eligible under the new law and more.

Veterans or anyone interested in serving those who served are encouraged to apply for these careers at: <https://benefits.va.gov/benefits/jobs/index.asp>.

### Making a Difference Through the PACT Act

During a recent VHA primary care appointment, a Navy Veteran who served in the 1980's completed a Toxic Exposure Screening (TES) where he reported military exposure concerns and adverse health effects from "asbestos, firefighting foam, diesel fuel, oil, lead paints, and lead primer." A consult was placed for Terry to meet with a TES Navigator for additional information regarding his concerns and to receive an Environmental Health Registry exam. Since then, he has worked with a Veteran Service Organization to file a claim for his toxic exposures and presumptive conditions included in the PACT Act. He shares that "he has struggled with these concerns for quite some time" and that VHA's efforts have "made such a huge difference in my life."

## VA IS EXPANDING CARE AND BENEFITS FOR VETERANS AND SURVIVORS

The PACT Act is perhaps the largest health care and benefits expansion in VA history. In this section, we are measuring the overall impact of the PACT Act in terms of its expansion of health care and benefits.

### Expanding Benefits

**276,415**  
Total Veterans/Survivors with Completed PACT Act Related Claims (08/10/2022–05/20/2023)

NEW

**233,382**  
Total PACT Act Claims Approved (08/10/2022–05/20/2023)

### Expanding Care

**84,824**  
New Enrollees from the PACT Act Planning Population (10/01/2022–05/21/2023)

**90.7%**  
VA Health Care 90-Day Trust Score (12/06/2022–05/20/2023)

**270,359**  
Total Veterans with Completed PACT Act Related Claims

**6,063**  
Total Survivors with Completed PACT Act Related Claims

**79.3%**  
Approval Rate for PACT Act Related Claims (05/20/2023)

Total New VHA Enrollees: (through 05/17/2023)

**154.8**  
Average Days for PACT Act Related Claim Completion (05/20/2023)

**47.0%**  
PACT Act Related Claims Completed <= 125 days (05/20/2023)

VA is committed to providing world class and timely health care, benefits and services to Veterans and Survivors. In this section, we measure VA's success in delivering outstanding and timely support and in earning the Veteran's and Survivor's trust.

### Care Experience

**3,497,328**  
Total Toxic Exposure Screenings  
(09/06/2022–05/21/2023)

**84,824**  
New Enrollees in the PACT Act Planning Population  
(10/01/2022–05/21/2023)

**3,870,951**  
Current Enrollees in the PACT Act Planning Population  
(as of 05/21/2023)

**1,479,672 (42.3%)**  
Toxic Exposure Screenings where Veterans Endorsed at least 1 Potential Exposure

**63.0%**  
New Enrollees in Priority Groups 1, 2, or 3  
(percentage based on the Planning Population)

**286,495 (8.2%)**  
Toxic Exposure Screenings where Veterans Endorsed more than 1 Potential Exposure

**1,193,177 (34.1%)**  
Toxic Exposure Screenings where Veterans Endorsed exactly 1 Potential Exposure

### Benefits Experience

The charts below show the past 12 weeks (a rolling 12-week view).

### Definition

This metric identifies the unique number of Veterans and Survivors who have filed a PACT Act benefit claim which VBA processed to completion.  
 This metric identifies the unique number of Veterans who filed a PACT Act benefit claim which VBA processed to completion.  
 This metric identifies the unique number of Survivors who filed a PACT Act benefit claim which VBA processed to completion.  
 This trust score reflects the percentage of Veterans who respond to the survey question, "I trust the VHA [Facility Name] for my health care needs" with a score of 4 or 5.  
 Percentage of PACT act disability claims where at least one condition was granted (regardless of whether or not the condition was filed under PACT).  
 This metric indicates the length of time it takes VBA to process a PACT Act-related benefits claim. This is measured from the date VA receives a claim to the date VA finished processing the claim and closed it out + 1 day, to eliminate the possibility of claims being completed in 0 days (ex. claim completed on the day it was received).  
 The Average Days to Complete (ADC) for PACT Act Related Claims is calculated based on the date VA received the claim, not the date VA began processing those claims. VA prioritized and completed some claims related to terminal illnesses, but VA did not begin processing most claims until January 1, 2023. As a result, the current value of ADC is inflated by any time between the date the claim was received and the January 1, 2023 implementation date for processing. The high ADC for PACT claims demonstrates VA's commitment to completing oldest pending claims first.  
 This statistic identifies the number of VBA benefit claims with one or more PACT Act-related conditions that have been completed in 125 days or less.  
 This metric identifies the number of completed PACT disability claims where at least one issue was granted.  
 The PACT Act Planning Population consists of Veterans where VA has a high level of confidence they are a member of one or more of the three PACT Act eligible cohorts (Vietnam, Gulf-War, Post 9-11). VA is using this population as a means of identifying the impact of the PACT Act on enrollment in VA health care.  
 This statistic measures the number of new enrollees in VA health care that fall within the PACT Act Planning Population to understand the impact of the PACT Act on enrollment. By design, this more focused metric will always be a subset of the metric above that shows overall new enrollment regardless of whether a Veteran is in an eligible PACT Act cohort. Together these two enrollment metrics help identify both the broad impact of PACT Act on enrollment - for example, those who may enroll for VA health care because of the publicity of PACT Act but are not directly eligible because of PACT Act—and the more direct impact of PACT Act—meaning those who are enrolling from populations VA assesses as becoming eligible due to the PACT Act.  
 This statistic identifies the total new VHA enrollments (newly registered healthcare beneficiaries) for the periods of August 2022-End of Current Month 2023 and August 2021-End of month 2022, for comparative analysis purposes.  
 This number identifies the change between 2023 and 2022 VHA enrollees during the same time period.  
 This calendar identifies key activities or outreach events occurring in the coming weeks.

### Definition

This statistic identifies the number of Veterans who have received a VHA Toxic Exposure Screening. Every Veteran enrolled in VA health care will receive an initial screening and a follow-up screening at least once every 5 years. Veterans who are not enrolled and who meet eligibility requirements will have an opportunity to enroll and receive the screening.  
 The screening will ask Veterans if they think they were exposed to any of these hazards while serving: Open burn pits and other airborne hazards, Gulf War-related exposures, Agent Orange Radiation, Camp Lejeune contaminated water exposure and/or Other Exposures.  
 This statistic identifies the number of VHA Toxic Exposure Screenings where a Veteran identified at least one exposure to toxic substances. It includes the number of Veterans who received the screening, the number of Veterans who identified at least one potential concern related to a toxic substance exposure, and the percentage of responses in which Veterans identified at least one instance of toxic exposure during the screening.  
 This statistic identifies the number of VHA Toxic Exposure Screenings where a Veteran identified exactly one exposure to toxic substances. **Please note the difference from the metric above – the metric above includes Veterans who identified at least one (includes both those who identified one exposure and also those who identified more than one exposure); this metric only includes Veterans who identify exactly one exposure.**  
 This statistic identifies the number of VHA Toxic Exposure Screenings where a Veteran identified more than one exposure to toxic substances. **Please note the difference from the metric above—the metric above includes Veterans who identify exactly one potential concern; this metric includes Veterans who identify more than one potential concern.**  
 Priority Groups: When Veterans apply for VA health care, they are assigned to 1 of 8 priority groups that impact how soon they are signed up for health care benefits and how much they may have to pay (if anything) toward the cost of care. To learn more about the factors that impact assignment, please visit <https://www.va.gov/health-care/eligibility/priority-groups>.  
 This metric identifies the total number of VBA benefit claims with at least one PACT Act-related claimed issue received each week.  
 This metric identifies the number of VBA benefit claims with at least one PACT Act-related condition completed each week.  
 This statistic identifies the total number of VBA benefits claims with at least one PACT Act related condition received since August 10, 2022.  
 This statistic identifies the total number of VBA claims with at least one PACT Act related condition completed since August 10, 2022.  
 This number identifies the total VBA benefits claims received each week not related to PACT Act.  
 This number identifies the total VBA benefits claims completed each week not related to PACT Act.  
 This metric identifies the average number of days it takes VBA to process a PACT Act related benefits claim.  
 This statistic identifies the current number of VBA benefit claims with one or more PACT Act-related conditions that have been pending for 125 days or less.  
 This statistic identifies the number of VBA benefit claims with one or more PACT Act-related conditions that have been completed in 125 days or less.  
 This metric identifies the average number of days it takes VBA to process a Non-PACT Act related benefits claim.  
 This statistic identifies the current number of pending VBA benefit claims with one or more Non-PACT Act-related conditions less than 125 days old.  
 This statistic identifies the number of non-PACT VBA benefit claims that have been completed in 125 days or less.  
 Definition goes here.  
 This statistic identifies the cumulative total of VBA benefits claims received since August 10, 2022, which are not related to the PACT Act.  
 This statistic identifies the cumulative total of VBA benefits claims completed since August 10, 2022, which are not related to the PACT Act.

### Definition

This metric identifies the number of currently pending PACT related disability benefit claims where a partial decision was rendered on the claim.  
 This metric identifies the number of currently pending non-PACT related disability benefit claims where a partial decision was rendered on the claim.  
 Top 5 most frequent conditions on PACT Act related disability claims with breakouts for the # of distinct claims associated with these claimed conditions, the total number of distinct issues claimed, the total number of issues granted, and the grant/denial rate.  
 To learn more about these health issues, please visit the Veteran's Health Library, <https://www.veteranshealthlibrary.va.gov/> and the Veteran's Health Encyclopedia, <https://www.veteranshealthlibrary.va.gov/Encyclopedia/Encyclopedia.pg?page=2&pagesize=25&letter=A>  
 Top 3 reasons for denials on decisions on PACT disability claims: Not Incurred/Caused by Service: Claimed condition is denied because condition neither occurred in nor was caused by military service; No Diagnosis: Claimed condition is denied because the medical evidence of record fails to show that the disability has been clinically diagnosed; Not Established by Presumption: Claimed condition is denied because the evidence of record does not show that certain criteria was met for a grant of service connection on a presumptive basis.  
 This statistic identifies the current number of pending VBA benefit claims with one or more PACT Act-related conditions.  
 This statistic identifies the current number of pending VBA benefit claims without any PACT Act-related conditions.

### Metric/Term

Total Impressions  
 MyVA411 Calls that Access the PACT Act Main Menu (Press 8)  
 Total MyVA411 Calls that Access the PACT Act Main Menu (Press 8)

### Definition

This statistic identifies the total number of PACT Act advertisements rendered on user screens through digital marketing. The impression is not action-based but is the user potentially seeing the PACT Act advertisement for awareness.  
 This statistic identifies the number of calls to 1-800-MyVA411 where callers selected the PACT Act Main Menu (Press 8).  
 This statistic identifies the total number of calls received to the automated MyVA411 line (option 8), which provides information about the PACT Act to callers.

## Stewardship

Reminder: Stewardship information will be included in every other issue of this dashboard publication (or when updated data is available).

### Metric/Term

Full-Time Equivalent Employee (FTE)  
 Account  
 Permanent Employee  
 Term Employee  
 Onboarded  
 Funds Allocated  
 Obligations

### Definition

Full-Time Equivalent refers to the total number of regular straight-time hours worked by employees divided by the number of compensable hours applicable to each fiscal year (regular method), or the total regular hours worked in a fiscal year (2,080 hours) divided by 26 biweekly pay periods (pay period method)(as per OMB A-11 Circular § 85.5(c)).  
 Account refers to a separate financial reporting unit used by the Federal Government to record budget authority, outlays and income for budgeting or management information purposes as well as for accounting purposes.  
 An employee who has been hired under an appointment that is not time delimited.  
 An employee for whom the agency has granted a term appointment (of employment) of more than 1 year but usually not more than 4 years.  
 Onboards (i.e., the number of personnel encumbering positions) are the number of employees (i.e., headcount) onboard when the data are reported. Note: "Onboards" differ from "FTE," which is a budgetary term based on compensable hours as opposed to headcount. Colloquially, "onboards" refers to newly hired employees who have started work with VA (their hiring is complete).  
 The amount of funding provided to each Administration or Staff Office.  
 Obligation means a binding agreement that will result in outlays, immediately or in the future.

## Geographical Analysis

Reminder: The Geographical Analysis is included in every other issue of this dashboard publication.

### Metric/Term

Veterans in State  
 Total PACT Act Related Claims Received  
 Percentage of Total PACT Act Related Claims Received  
 Veterans Currently Enrolled with VA for Care  
 New Enrollees  
 Percentage of New Enrollees

### Definition

This statistic identifies the number of Veterans in a particular location. This is a projection as of 09/30/2022. This projection is not subdivided for U.S. territories, Freely Associated States, and Philippines; this population is aggregated.  
 This statistic identifies the total number of VBA benefit claims with at least one PACT Act-related condition separated by state of residence.  
 This statistic identifies the percentage of VBA benefit claims with at least one PACT Act related condition received in a particular state divided by the overall number of PACT Act related claims received.  
 This statistic identifies the number of Veterans enrolled in VHA healthcare who have a permanent address in a particular state. (This does not include those Veterans who do not have a permanent address or those with a permanent address outside the 50 states).  
 This statistic identifies the number of Veterans newly enrolled in VHA healthcare who have a permanent address in a particular state. (This does not include those Veterans who do not have a permanent address or those with a permanent address outside the 50 states).  
 This statistic identifies the percentage of Veterans newly enrolled in VHA healthcare who have a permanent address in a particular state, divided by the overall Veteran population. (This does not include those Veterans who do not have a permanent address or those with a permanent address outside the 50 states).
